PROFILE

Software engineer building modern, responsive, and interactive web experiences. Skilled across the stack, from motion-driven React front-ends to PHP and MySQL back-ends, with a strong eye for UI, debugging, and problem-solving from multiple perspectives. Works independently and thrives in agile teams, while helping others understand tech as a whole.

EXPERIENCE

Software Engineer | FLOW Communications, Johannesburg Present

- Building high-end web applications and client websites end to end.
- Developing motion-driven, interactive front-ends in React, GSAP and Tailwind CSS.
- Currently deepening React and Laravel framework expertise.

Web Developer | Umuzi.org

- Intensive full-stack training: JavaScript, PHP, MySQL, testing with Jasmine.
- Shipped projects against real briefs with code review and agile ceremonies.

Software Developer | Vodacom | BBD, Johannesburg Feb 2020 - Jul 2020

- Collaborated in an agile team integrating web-based projects.
- Code up-skilling using the T-shaped skills approach in a fast-paced environment.

TECH STACK
